

Optimize the customer experience with enhanced interactions, deeper insights, and more efficient resolutions.

Enhance your interactions, insights, and customer engagement. Contact Center Pro package offers IVR, skills-based call routing, and historical reporting. You also get the option to add full omni-channel capabilities to take the conversation well beyond just voice.

FEATURE HIGHLIGHTS INCLUDE:

- Skills- and rules-based routing
- Scheduled & custom reports
- Queued callbacks & voicemails

DELIVER SUPERIOR OUTCOMES

Power Efficient Interactions

Features like skills-based and rules-based routing help customers get the right answer, from the right person, at the right time. Your customers – and your KPIs – will thank you.

Realize Richer Insights

Real-time reports are terrific for managing in the moment. Sometimes, though, you need to see trends and patterns over time. Contact Center Pro helps you get there, with more reporting tools, report scheduling, and historical reporting.

Intelligently Direct Inquiries

With the Pro package, you can customize the Interactive Voice Response (IVR) system to streamline the flow of inquiries and deliver faster resolutions.

Engage Customers Across Multiple Channels (add-on)

Not all customers pick up the phone. Our email, chat, and SMS channel add-ons let you take the conversation further. Add only the channels you need now and add more later.

CONTACT CENTER PRO INCLUDES:

FOR CONTACT CENTER CALLERS

- Smart Greetings (announces # of callers in queue, estimated waiting time)
- Automatically connects callers to the next available agent. Places the caller on hold when all agents are busy with calls.
- Routes calls to i) organized departments such as sales, customer service, or technical support, or ii) Agent based on specific skillset or geography
- Customizable IVRs let you map out call flow to deliver efficient routing and resolutions
